An ISO 9001 : 2015 Certified Company

**Corporate Address:**

809, Krushal Commercial-  
Premises Center Co-op Society Ltd.  
G. M. Road, Chembur (W),  
Mumbai - 400 089.  
Maharashtra, India

Telephone : +91 22 2525 3333

+91 22 6828 3333

+91 80 9732 3333

E-mail : info@uniquesc.in  
sales@uniquesc.in

**GST No: 27AAFFU0164J1Z3**

“ One Stop shop for  
Speciality Chemicals,  
Additives, Resins,  
Pigments, Waxes,  
Solvents for Paint,  
Coating, Sealant,  
Adhesive, Printing  
Ink and Construction  
Industry ”

## ADDITIVES

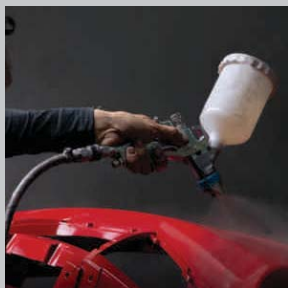

### THIXOTROPES RHEOLOGY MODIFIERS THICKENERS

---

Anti-Sagging / Anti-Settling /  
Metallic Orientation

---

- Castor Wax & Derivatives
- Amide Wax
- Pre-Activated Amide Wax
- Oxidised Polyethylene
- Non-Ionic Polyurethane Thickener

## ADDITIVES

### SURFACE CONTROLS

Levelling /Defoaming/Anti-Cratering/  
Anti-Popping/Texture/Slip/Mar and  
Abrasion Resistance

- Modified Silicone
- Acrylic Polymer
- Vinyl Polymer
- Cross Linkable Silicone (Anti-Graffiti)
- Polyether Modified Silicone
- Synthetic Waxes
- Microcrystalline Waxes
- Polyethylene Waxes
- Polytetrafluoroethylene Waxes
- Polypropylene Waxes
- Amide Waxes
- Bio-based Waxes
- **PTFE FREE WAXES** 

### DISPERSIONS / EMULSIONS

- Polyethylene Wax
- Polymer Modified Silica
- Polytetrafluoroethylene & Polyethylene Wax
- Polytetrafluoroethylene & Microcrystalline Wax
- PE waxes in an UV Acrylated Oligomer
- Polyethylene & Polytetrafluoroethylene

## ADDITIVES

### DISPERSING AGENT

---

Pigment Wetting / Orientation /  
Anti-Flooding / Anti-Floating

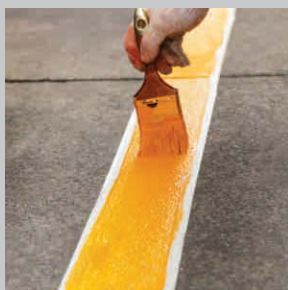

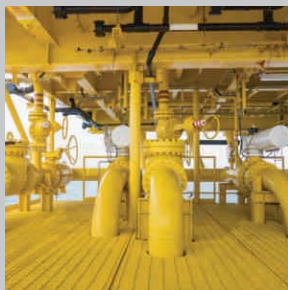

---

- Amine Salt of Polyether Phosphate
- Polyether Phosphate
- Amine Salt of Polyether Ester
- Polyester Acid, Amide & Amine
- Aliphatic Carboxylic Acid
- Amine Salt of Polyether Ester, Acrylic Polymer
- Amine Salt of Polyether Ester, Carboxylic Acid
- Acrylic Polymer
- Polyether Phosphate
- Amine Salt of Anionic Surfactants
- Acrylic Polymer with Amine

### FLASH RUST INHIBITOR

---

- Amine Based
- Amine Free
- Anti Corrosive / Improved Salt Spray Resistance

## RESINS

### EPOXY

---

- 1K Modified Epoxy (SB/WB)
- 1K Modified Epoxy Ether (Bio-based)(SB/WB)
- 1K Modified Epoxy Ester (SB)
- 2K Modified Epoxy Resin (Bio-based)(SB/WB)

### ACRYLICS

---

- Acrylic Polyols
- Thermosetting Acrylics
- Thermoplastic Acrylics

### POLYESTER

---

- Saturated Polyesters
- Unsaturated Polyesters

### POLY-URETHANE

---

- Poly-Urethane Dispersions

### ADHESION PROMOTERS

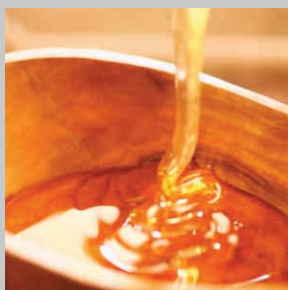

---

- CPP modified Acrylics
- CPO modified Acrylics

## RESINS

### ALKYDS

---

- Soya Alkyd ( Short / Medium / Long )
- Short Castor / Olive Alkyd
- Short Coconut Alkyd
- Acrylated Alkyd
- Polyurethane Alkyd

### SILICONES

---

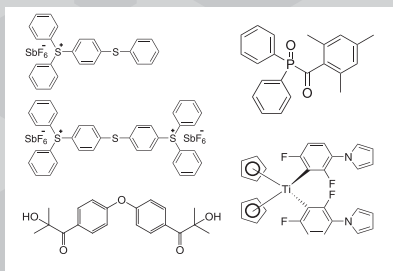

- Silicone Modified Epoxy  
(HR & Corrosion Resistance)
- Silicone Modified Polyester
- Acrylic Silicon

### MISCELLANEOUS

---

- Branched Castor based Polyol
- Butylated Urea Formaldehyde
- Butylated Melamine Formaldehyde
- Maleic Penta

## UV STABILIZERS

### PRODUCTS

- UV Blockers
- Reactive Type
- Waterborne Systems
- Benzotriazole UVAs
- Triazine UVAs
- Benzophenone UVAs
- Hindered Amine Light Stabilizers

### INDUSTRY APPLICATIONS

- Blue Light Absorber & UV Blockers
- Automotive Coatings
- Industrial Coatings
- Waterborne Coatings
- Polyurethane Polymers
- **Masterbatch**

## CONSTRUCTION CHEMICALS

- Modified acrylic resin emulsion enhanced with NANO ADDITIVES for longer durability and water-proofing properties.
- 1K NANO enhanced emulsion for improved durability, crack filling with improved adhesive and impact strength. Compatible with cement.
- Epoxy based two pack high performance rebar coating for toughness and abrasion resistance.
- Integral water-proofing compounds to improve compressive strength of concrete
- Ethylene Bis-Stearamide - Paint & Coatings, Bitumen, Rubber, Plastic masterbatch applications

65.38 <small>Atomic mass</small>	30 <small>Atomic number</small>
<b>Zn</b>	
Zinc	
906.4 <small>First ionization energy</small>	1.65 <small>Electronegativity</small>

## PIGMENTS

### METALLIC

---

- Cornflake
- Bright
- Sparkling
- Leafing & Non Leafing

### ZINC DUST

---

- Multiple Grades

### ANTI CORROSIVE

---

- Aluminium Triphosphate
- Aluminium Metaphosphate

### SPECIALITY

---

- Fluorescent pigments
- Phosphorescent pigments
- Thermochromic pigments
- Photochromic pigments
- Invisible pigments
- Aromatic microcapsules

## SPECIALITY CHEMICALS

### SOFT FEEL / TOUCH MODIFIER / DEAD MATT

---

- Elastomeric Polyurethane Micro-Beads
- Polyurethane Micro-Beads
- Carbon Black-Coated Polyurethane Micro-Beads
- Cross-Linked PMMA Micro-Beads

### ANTI-STATIC

---

- Aluminium Doped Zinc Oxide
- Conductive Fillers

### CARBON FIBER

---

- Epoxy Blends
- Polyester Blends
- Chopped
- Milled
- Sheets

### THERMAL RESISTANCE

---

- Silica Aerogels

PV Cell & Metal paste dispersions  
(like Ag, Ni, etc.)

which increases solid contents and keeps particle size stable for long period of time. These grades are suitable for Hi-Refractive index material like Ni Paste.

for controlling viscosity, preventing hard caking and sedimentation of paste and slurry which contributes to improve fine-line property and increasing printing thickness of screen printing like preparation of Silver Paste.

- Hydroxy Glyceride
- Modified Hydroxy Glyceride
- Hydroxy Fatty Acid
- Poly fatty Acid

NOTES

## NOTES

A vertical sheet of white paper with horizontal ruling lines and a background pattern of light gray hexagons of various sizes. The hexagons are arranged in a non-uniform, overlapping pattern across the entire page. The ruling lines are thin and gray, spaced evenly apart. The paper appears to be a template for a notebook or a document.

## NOTES

## SOME OF OUR PRINCIPALS

*Kusumoto Chemicals, Ltd.*

Color & Comfort

**IDEAL CHEMI PLAST**

a member of the DIC group
